

Latest news from ALPOA

*Spring clean-up on Hwy 48 is set for May 11 at 9 am. So grab your work gloves and join us. Be rewarded with doughnuts and coffee afterwards. Fall clean-up is set for Oct. 5.

*Thanks to Elizabeth in the Pro Shop. You can now make dining reservations and set golf times on your personal phone. See the Pro Shop for more information.

*Joe McCubbins, president of AMGA, asked ALPOA for support and help in creating a July 4th four-day celebration. He has suggested parades, BBQ, floats, street dance, and games among a few ideas. He is looking for people to help plan and run the celebration. If you can help contact Joe or George Holmes. You need not have to play golf to help.

*ALPOA has voted to contribute money for the construction of rest rooms at Outlaw near the present and future pickle ball and tennis courts.

***To full timers and part-time residents: Alto Lakes G&CC is asking everyone to be part of Neighborhood Watch. Don't be politically correct, too busy, uncaring, or not nose. Please watch your neighbors' homes on your block. If you see anything that seems weird or unusual call the Sheriff's office. They will too happy to check things out. With strange vehicles, get the color, make, and possible license number. Watch out for Porch Pirates. If a package sits for a while on the porch at least contact the homeowner or take the package inside until they arrive back here.**

Homeowners can help themselves by not announcing they are not in residence: do not hang chains across the driveway; do not leave Christmas decorations on the front door in May; open the curtains/blinds and use timers to turn on and off various lights in the house. Make sure all the doors are locked. Cancel the newspaper.

Neighbors can help during the winter months by driving into the driveway and leaving tire marks and walking around the house as if someone is present. If you see someone drive up to the house across the street walk out on to the porch and watch what are they doing and stare at them until you are satisfied all is well.

* Be proud to live here. **Mother Earth needs your help.** We are being overrun by uncaring people who think nothing of tossing beer bottles, beer cans, soda cans, cigarette butts, plastic food cups and bags and other trash from Hwy 48 all the way into Outlaw.

Pick up trash on your property or while out walking. Carry some grocery bags and a grabber and pick up at least parts of your block. Get some friends to drive a cart while picking up trash. And if you do pick up after your dog take the baggie home and dispose of it rather than leaving it along the road. It would neighborly to not let your dog go poop on other people's property.

If you need more information on tree or lot cleanup contact Eric in the office.
